### **Verse I**

You say that you're facing a battle  
And you're troubled deep down with in  
You're about to give up, you're ready to give in  
But keep on looking up and keep on trusting him

### **Chorus**

You've gotta stand up and claim your victory  
Speak those things that aren't as though they were  
The battle is not yours, so give it to the Lord  
You've gotta stand up and claim your victory

### **Verse II**

You may be feeling defeated  
And you may be feeling all alone  
Child don't you fret, God's not through working yet  
Speak it in Jesus name, the victory is yours to claim

Repeat Chorus

### **Verse III**

The doctor says you're sick in body  
But whose report will you believe  
And when you're feeling weak just fall down on your knees  
By His stripes you were healed, in His Word it is revealed

Repeat Chorus

### **Tag**

The battle is not yours, so give it to the Lord  
You've gotta stand up and claim your victory  
Just stand up and claim your victory
