

# Everything I Need

Alan Brady/LeeMike Music/BMI

## Verse I

When the world looks at me  
There's not much to see  
For the riches they just pass me by  
But what they can't see  
It's all I'll really need.  
It's just something that money can't buy

## Chorus

I've got everything I need  
To make my life complete  
I've got family and friends  
One that will be there til the end  
He put a love in my heart  
That'll never depart  
So, don't worry about me  
I've got everything I need

## Verse II

I wouldn't trade a thing  
For what's waiting for me  
These earthly riches they last but for a while  
So I'll struggle along  
Soon I'll have my new home  
Where my riches they're layed up in the sky

## Tag

Don't you worry about me  
I've everything I need..  
I need
