

More Than A Book

Alan Brady/LeeMikeMusic/BMI

Verse I

Some people say that God is not real and the Holy Bible is just a book of fairy tales
They say I've gone crazy and I must have lost my mind
But here's what I tell them, time after time

Chorus

He parted the water when there seemed no way out
He healed my body, it was Him without a doubt
I too was blind, but now I can see
He's more than a book to me, Yes He's more than book to me

Verse II

Well if you don't know it and you haven't read, just open the book and do what it says
Those wonderful pages, will forever change your life
And then you can tell them time after time

REPEAT CHORUS

Tag

I too was blind, but now I can see
He's more than book
Or any story I've heard

He's more than book
He's the living Word
He's more than a book to me
